Opening the Doors to Confidence, Health & Wellness for ALL Kids

golf.ymywha.com

HELPING KIDS REALIZE THEIR POTENTIAL

At the Sylvan Adams YM-YWHA, we believe that *all* children should have access to the tools they need to stay active and feel connected to our community. We remove financial barriers and pride ourselves on keeping our doors open to *everyone*. Physical activity is known to contribute to academic

success, improved self-esteem, a key sense of belonging, and social skills. Staying active and having fun is now more important than ever. When you support Y Golf, YOU make it possible for children to participate, connect with friends and enjoy all the Y has to offer.

Physical activity improves:

- Physical health
- Cognitive development
- Mental health
- Academic achievement
- Pro-social behaviour
- Self-esteem

Physical activity results in:

- Fewer mental health visits
- Decreased inattention and hyperactivity
- Reduced smartphone addiction
- Lower odds of obesity
- Lower rates of depression, anxiety and suicide ideation

"I got involved with this great cause because as I have often said in today's business world and global economy, only helping clients thrive is not sufficient! We must also help our communities to prosper.

The Y community is one which I admire due to their tireless commitment to helping the quality of life for so many.

Not only are we helping communities prosper by supporting this event but we are all having a great time while doing so!

Kudos and keep up the great work!"

— Senator Tony Loffreda
