

It All Starts Inside

Building the future of teh Sylvan Adams YM-YWHA

FAQ

What is this construction project about?

The project is a phased campus improvement initiative designed to enhance facilities, improve safety, and support long-term community needs.

Why is the work being done in phases?

Phased construction allows operations to continue as normally as possible while work is completed in achievable, well-planned stages.

When will construction begin?

Construction is scheduled to begin in Mid February 2026.

How long will the project last?

The overall project will be completed over multiple phases. Timelines may adjust as work progresses, and updates will be shared regularly.

Will the facility remain open during construction?

Yes, the facility will remain open. Some areas may be temporarily closed as work moves through different phases.

Which areas will be affected first?

The first phase will take place in the Education Wing. Affected zones will be clearly marked, and alternative access will be provided if and when necessary.

Will programs or classes be cancelled?

Every effort will be made to maintain normal programming. If a change is required, members will be notified in advance.

Will noise and dust be an issue?

Some noise and dust are expected during active construction periods. Contractors will follow strict safety and containment protocols to minimize disruption.

How will this affect parking?

Indoor parking will remain open throughout the project.

Is the construction area safe?

Yes. All construction zones will be securely fenced, clearly marked, and monitored to ensure member and staff safety.

Who can I speak to if I have questions?

Members can speak with front-line staff or managers, who will escalate questions to the appropriate project team.

How will updates be communicated?

Updates will be shared through email newsletters, website updates, signage within the facility, and direct staff communication.

Will membership fees change during construction?

There are no planned membership fee changes at this time.

What happens if construction is delayed?

Construction schedules can be affected by weather, inspections, or material availability. Any significant delays will be communicated promptly.

Will accessibility be maintained during construction?

Yes. Accessible routes and accommodations will be maintained throughout the project.

How will safety be managed during high-traffic times?

Construction work will be coordinated to minimize impact during peak usage times wherever possible.
